## EXECUTIVE SUMMARY

This document is the written companion of the real Deliverable, which was the meeting itself.

### 1. INTRODUCTION

A meeting (Creative Hackathon) was held in Paris. The following detail the meeting and its history.

### 2. THE MEETING

At the second HumanE AI Net Summer School a decision has been made to collaborate with the INRIA conceived CreArtAthon concept (<https://creartathon.com>) and to sponsor and organize the second edition of the design + interaction + AI hackathon for creators.

The idea was to combine art and science in a Creative Hackathon where multi-disciplinary teams of five students collaborate on the design of an intelligent interactive object. This year's challenge: Designing a creative, intelligent & interactive artifact that creates a true human-computer partnership.

This event was organised by the Université Paris-Saclay, with the Inria Saclay Centre, and Societies, and taken place at La Fabrique, fablab of centrale Supélec. Dates were 07.07.2022 – 17.07.2022.
