## EXECUTIVE SUMMARY

This is a written companion of D8.5, a conference.

### 1. INTRODUCTION

A conference was held on June 26-30 in Munich. Below we describe the meeting, our role, and the follow-ups.

### 2. THE CONFERENCE (HHAI)

At the 2023 Summer School the project decided to take the lead in the organization of (<https://hhai-conference.org/2023/>), the **Hybrid Human Artificial Intelligence (HHAI) conference**. The meeting was held in Munich, 26-30 June 2023. We strategically see this conference as a “project legacy” which will ensure that the scientific community we have built through the project will live on after its ends, since such conferences are what defines and holds together scientific communities.

At the same time, during the project runtime, the conference attracts a mix of researchers from the HCI, AI and even computational social science to our project ensuring growth beyond the project members.

ISSN 1613-0073

Thus the latest (second) edition of the conference had that HumanE AI Net and fully organized it had 78 submissions, with 14 accepted as long, 14 short „working papers” and 7 extended abstracts (43% acceptance rate). The conference had 179 attendees (37% of that students) from 27 countries and over 100 different affiliations, with the majority being from outside our project.

The first edition was driven by the Dutch Hybrid Intelligence consortium in Amsterdam (with a support from HumanE AI Net) and was much more dominated (much more than the half) by participants from within the two consortia. For the next year the HHAI will be organized together with the Swedish TAIGA AI initiative and the following year the Italian AI initiative will take over.

The broad program of the conference can be seen below:

SCHEDULE	Time (START)	Monday, 26. June	Tuesday, 27. June	Wednesday, 28. June	Thursday, 29. June	Friday, 30. June
		09:00	Coffee & Lunch breaks are the same as the regular days <b>Full day:</b>	Coffee & Lunch breaks are the same as the regular days <b>Full day:</b>	"Engineering Social Capabilities in Human-Centered AI" (Ana Paiva)	"Hybrid Intelligence: from a vision to a scientific discipline" (Frank van Harmelen)
10:00	Workshop 1 (Room B)	Workshop 1 (Room B)	Coffee break (Room F)			
10:30	Workshop 3 (Room C)	Workshop 5 (Room C)	Paper session 1	Paper session 4	Paper session 6	
12:00	Workshop 4 (Room D)	Workshop 6 (Room D)	Lunch Break (Room F)	Lunch + Townhall (Room F)	Lunch Break (Room F)	
13:30	Hackathon (Room G)	Doctoral Consortium (Room G)	Paper session 2	Posters + Demos	Paper session 7	
15:00	<b>Half day:</b> Tutorial 1 (starting 09:00) (Room H)		Coffee break (coffee + light snacks) (Room F)			
15:30	Tutorial 2 (starting 13:30) (Room H)		Paper session 3 Science4Impact Entrepreneurship Bootcamp (Room B)	Paper session 5	Announcing the European Strategic Agenda (SRA) for AI + Closing + Awards „Ends 15:20“ (Room A)	
18:00-20:00		AI-Lab Tour	Welcome Reception	Science4impact Night	Paper sessions and keynotes take place in Room A	

The Science4Impact Night on day three was an innovation event co-organized by WP7 **AI Innovation Networking – Founders4impact night**, with 70+ attendees, 3 table leaders from Science, Venture Capital and Social Entrepreneurship, 12 Startup Pitches.
